

## PRESS RELEASE

### **Online platform for used machines BEVMAQ grows and expands**

*Quakenbrück, 03/07/2022*

**BEVMAQ operates a transactional online platform for used beverage machinery and equipment. Founded at the end of 2021, the company offers an all-round carefree package for the sale and purchase of used machinery of the global beverage industry.**

Recently, the team moved to a new office in Quakenbrück, Lower Saxony. At the beginning of the year, the first used machines sold via the platform were successfully dismantled, loaded, transported, installed, and commissioned.

"Since our foundation, we have been working strongly to expand our network, broaden our machine portfolio, develop transactions and successfully implement them. The dismantling and loading of the first machine were a special experience. I was there myself and executed the loading with our team," explains Carsten Hormes, managing partner of BEVMAQ GmbH.

From Krones, KHS to GEA and from complete production lines to individual applications, the used machinery dealer focuses on a wide range of products. BEVMAQ specializes in global trading and transaction processing. This year's agenda focuses on strategic growth in Europe, Africa, and Asia.

"We are currently developing new markets and regions both on the procurement side and on the sales side. We will become active in France in the short term and further expand our existing network in Europe, Central Asia, and Southeast Asia. We are also currently opening new potentials in North and West Africa," says Hormes.

The online platform at [www.bevmaq.com](http://www.bevmaq.com) is the central contact point for sellers and buyers. Around the clock, used machines can be digitally offered for sale or quotes can be requested. BEVMAQ focuses on transparency in documentation and in the negotiation process. For all machines, the sales price is visibly displayed online. The supply of used machines is expected to

## **PRESS RELEASE**

grow significantly in 2022. BEVMAQ is currently looking for new team members for the areas of procurement and sales.

### **About BEVMAQ:**

BEVMAQ specializes in the global trade of used machinery in the beverage industry. With the machine platform [www.bevmaq.com](http://www.bevmaq.com), the company offers holistic transaction processing for sellers and buyers of used machines. BEVMAQ was founded at the end of 2021 by The Platform Group GmbH & Co. KG, Carsten Hormes (former managing director of Wilhelm Hormes Ing. GmbH & Co. KG), Janek Andre and Benedikt Ruf (founder and managing directors of the GINDUMAC Group).
